

youmans Customisation Information Sheet

Customised Foam Insert

Email us at enquiries@youmancapsule.com to chat with us about your customisation requirements and how you want to present yourself, your brand or your product.

Once the design and price is approved we cut the foam, prepare, and assemble any other elements.

For the best fit for your products we need your physical items to precision cut the foam.

The customisation process takes between 1 - 3 weeks.

Visualise and consider the physical and visual elements of your presentation that you want to include.

This could include product, product samples, digital slideshow, imagery and branding.

Customised Engraving

Email us at enquiries@youmancapsule.com to chat with us about your customisation requirements.

Through conversation with you we will understand your requirements, then send you example images to view and approve. We offer various placement and size options if desired.

We will need an EPS or editable PDF version of your logo to create the image.

Engraving takes between 1 - 2 weeks

Visualise and consider size and placement of your logo on the capsule.

How will your capsule colour choice enhance your logo?
